

SHAHNEWAJ ISLAM

AI / FULL-STACK ENGINEER

+1 (512) 553-8099 | contact@shahnewajislam.com | New York, USA (Open to Remote)

PROFILE

Senior Full-Stack & AI Engineer with 10+ years of experience building, deploying, and maintaining modern web applications and cloud-based solutions. Strong experience with C#, .NET, React, TypeScript, Node.js, Microsoft Azure, Azure OpenAI, Microsoft Graph, and SQL. Experienced in developing AI pplications, RAG systems, AI agents, intelligent assistants, and business automation solutions. Skilled in DevOps and cloud deployment, including Azure, Docker, CI/CD, GitHub Actions, Azure DevOps, application monitoring, and production releases. Experienced across the full development lifecycle, from architecture and development to testing, deployment, optimization, and maintenance.

CORE EXPERTISE

AI & Agentic Systems • Full-Stack Product Engineering • Microsoft 365 & Power Platform • Cloud & DevOps Architecture • Distributed Systems & API Integration

PROFESSIONAL SKILLS

Languages: TypeScript, JavaScript, Python, Go, SQL, C#/.NET
Frontend: React, Next.js, Vue, Svelte, React Native, Tailwind CSS, Zustand, Redux Toolkit, TanStack Query, WebSockets
Backend: Node.js, NestJS, Express.js, Django, FastAPI, .NET, REST, GraphQL, gRPC, AWS Lambda, Microservices
Microsoft Ecosystem: Microsoft 365, SharePoint Online, Power Apps, Power Automate, Microsoft Graph, Teams, Entra ID, Power BI
AI & LLM: LangChain, LlamaIndex, OpenAI & Anthropic APIs, PyTorch, Hugging Face, RAG, Vector Databases, Embeddings, Function Calling / Tool Use, AI Agents
Cloud & Infrastructure: AWS, Azure, GCP, Docker, Kubernetes, Terraform, Cloudflare, GitHub Actions, Azure DevOps, Datadog, Sentry

PROFESSIONAL EXPERIENCE

Senior Full Stack / AI Engineer - Dreamers Inc June 2023 - July 2026

Key Technologies: React, Next.js, TypeScript, Python, FastAPI, Generative AI, LLMs, RAG, PostgreSQL, Azure, AWS, Docker, CI/CD

- Led the design and development of AI-powered web applications and intelligent business solutions using React, TypeScript, Python, FastAPI, and modern cloud infrastructure
- Built LLM-powered features, RAG pipelines, document intelligence workflows, API integrations, and scalable backend services while contributing across product architecture, frontend development, DevOps, and production deployment.

Full Stack Microsoft Developer - EPAM Systems

Oct 2020 - Aug 2023

Key Technologies: React, TypeScript, C#/.NET, Microsoft 365, SharePoint Online, Power Apps, Power Automate, Microsoft Graph, Azure, Entra ID, SQL, REST APIs

- Developed enterprise applications and workflow automation solutions across the Microsoft ecosystem.
- Built custom web applications, SharePoint solutions, Power Apps, Power Automate workflows, and Microsoft 365 integrations while contributing to backend services, APIs, authentication, cloud deployment, and enterprise data integration.

Full Stack Developer - Onit Digital, Inc

Jun 2018 - July 2020

Key Technologies: React, JavaScript, TypeScript, Python, Node.js, REST APIs, PostgreSQL, MySQL, Git, Docker, AWS

- Built and maintained responsive web applications, internal business tools, APIs, and data-driven platforms from frontend through backend deployment.
- Developed reusable React interfaces, backend services, database integrations, authentication systems, and third-party API integrations while supporting application testing, optimization, and cloud deployment.

EDUCATION

Bachelor of Computer Science

Sep 2012 - Apr 2016

Queens College
